

# WE REPRESENT YOUR INTERESTS.

# WE MEDIATE FOR YOU.

# WE COMMUNICATE WITH YOU.

De Eerste Kamer represents the interests of the 4000+ tenants of DUWO The Hague. We do this by cooperating with fellow tenants' associations, educational institutions, DUWO and the Municipality of The Hague, and by advising DUWO on its policy, whether requested or unsolicited. De Eerste Kamer has a legally determined influence on DUWO's policy.

Are you not able to figure it out with DUWO? We can help you through informing, mediating and giving you legal advice. With our network, we are happy to support you!

By maintaining close contact with our members, both individual tenants and student representatives and residents' committees, we can respond to current problems. In spring and autumn we update our members with a newsletter about all kinds of current affairs. Through our social media we share tips and tricks about our association, DUWO and renting a student room.

## Local

At local level, De Eerste Kamer works together with the DUWO's local office and has regular meetings with other local parties, such as the Municipality of The Hague and the educational institutions. In addition, she provides support to student caretakers, residents' committees and individual tenants.

## Central

At a central level, De Eerste Kamer works together closely with DUWO and colleagues from Leiden, Delft, Amstelveen and Amsterdam. DUWO's general policy, requests for advice, policy changes, major changes to the policy, issues, finances et cetera are discussed at this level.
