Are you social, critical and linguistically strong? Are you not afraid to let your opinion be heard? As Board Member External Affairs, you will represent the opinions of the association in the various regular meetings with our cooperation partners, where you will be involved in policy issues regarding student housing.

Are you energetic, social, and enterprising? Networking is not a problem for you and talking to DUWO's social administrators or student administrators only gives you energy! With the information you receive from the various parties, you (partly) control and promote DUWO's policy.
